

ISSUES OF OUR CONSTITUENCY

ELECTRICITY

Many areas in our neighborhood suffer from frequent power outages, which disrupts our daily routines and affects businesses.

TRANSPORTATION

Proper transportation infrastructure is lacking, making it difficult for residents to commute and access essential services.

HEALTHCARE

Without hospitals, our community faces heightened vulnerability during medical emergencies and struggles to access routine healthcare services.

INFRASTRUCTURE

Roads and parks are in dire need of improvement to ensure safe travel and recreational spaces for families.

DRAINAGE SYSTEM

The inadequate drainage system exacerbates flooding and sanitation issues during heavy rains, posing health risks to residents.

WATER SUPPLY

Access to clean water supply remains a pressing concern, affecting households' daily routines and overall well-being.

CHANGES I AIM TO IMPLEMENT

ELECTRICITY

To tackle electricity power issues, we will prioritize infrastructure upgrades and maintenance, alongside exploring renewable energy solutions to ensure consistent supply.

TRANSPORTATION

Improving transportation infrastructure demands investments in road construction, bridges, and public transit systems, facilitating smoother commutes and access to essential services.

HEALTHCARE

Build more hospitals to handle emergencies and regular healthcare needs. Invest in facilities, staff, and equipment for effective healthcare services.

INFRASTRUCTURE IMPROVEMENT

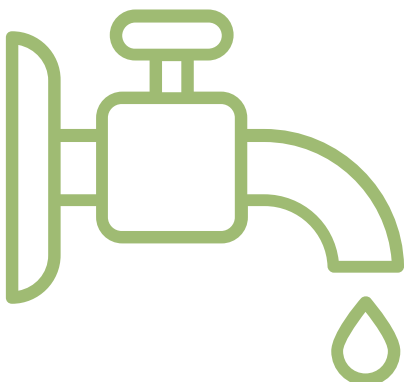

Enhancing roads and parks involves allocating resources for repairs, street lighting, and recreational space development, fostering safer and more enjoyable environments for families.

DRAINAGE SYSTEM

Upgrade drainage systems to prevent floods and address sanitation issues. Regular maintenance and flood management are crucial for effective solutions.

WATER SUPPLY

Invest in water treatment, maintain infrastructure, and educate communities on water conservation to ensure clean water access for all.
